Financial Overview

(Numbers represent fiscal year 2024 - 2025)

Allocated Expenses \$571,312

Revenue \$571,312

Significant time and resources were dedicated to developing and preparing for a full year of programming for the year ahead. This includes the relaunch of our formation program in both English and Spanish, newly designed to be more succinct and experiential. We also introduced new branding and launched an updated, user-friendly website to make information easier to find, while strengthening our online and social media presence. To better support these efforts, we added a part-time program staff position.

Our financials continue to trend toward stronger program support (58 cents to the dollar, up five cents from the previous year) as we also expand development efforts to diversify and grow our sources of financial support and lessen our dependence on investments.
