

## Printed Copies of Course Materials

The teaching medium for the classes in this course will be PowerPoint presentations. Many students find it helpful to have a printed copy of the text of the PowerPoint presentation as the material is being taught and/or for reference later. The text files of all course materials will be posted online two days prior to each class meeting. Thus, the text files for the January 11 class will be available online on January 9. A student wishing to have printed copies of these materials should access and print his/her own copies and, if desired, bring them to class. Printed copies will not be provided during the class.
